Headache and Skin Sensitivity Issues Resolved via Natural Hygiene

Tags: Rashes & Irritation, General Health, Long-term

Duration of Use: 3 Years

Summary:

I used to get severe tension headaches, itching, and a hot, suffocating feeling during my periods when using disposable pads. Since switching to Saukhyam three years ago, all of these symptoms have vanished. I no longer get headaches, and the pads feel cool and comfortable against my skin. The breathable banana fiber core makes a noticeable difference in preventing odor and heat build-up.
