Six Months to Zero Cramps and Complete Skin Comfort

Tags: Period Cramps, Rashes & Irritation, General Health, Long-term

Duration of Use: 5 Years

Summary:

Disposable pads caused severe dryness, skin peeling, and painful rashes. Within six months of switching to Saukhyam pads, my cramps went away entirely, and the dryness and itching disappeared. My general fatigue during periods has also decreased, and I feel energetic. I am extremely happy that I no longer generate plastic waste, contributing to a cleaner environment while healing my own body.
