Overcoming Decades of PCOS Pain and Regaining Skin Comfort

Duration of Use: 4 Years

Summary:

Every period was a nightmare. I struggled with irregular cycles, severe abdominal pain that stiffened my body, acne, and hair fall. The plastic disposable pads made it worse, causing constant skin irritation and rashes. Since making the switch to Saukhyam pads four years ago, my health has completely turned around. The soft banana-fiber pads are incredibly gentle on my skin, and the painful rashes have disappeared. My periods are now more regular, and my period cramps have become minimal. I no longer dread my menstrual cycle.
