Essential Menstrual Comfort and Sustainable Health Upgrade

Tags: General Health, Long-term

Duration of Use: 6 Years

Summary:

I did not have severe disorders, but disposable pads always made me feel sweaty, itchy, and uncomfortable. I switched to Saukhyam reusable pads six years ago to adopt a more sustainable lifestyle. The difference in comfort was immediate. There is no itching, no odor, and no plastic feel. My menstrual health has remained excellent, and I feel proud that I have kept hundreds of plastic pads out of landfills.
