Pain-Free Cycles and Total Freedom from Plastic Pad Rashes

Tags: Period Cramps, Rashes & Irritation, General Health, Long-term

Duration of Use: 2 Years

Summary:

Before my pregnancy, my period pain was so intense that I frequently needed hospital visits for pain relief injections. Disposable pads also caused constant itching and skin peeling. Since switching to Saukhyam pads two years ago, my experience has transformed. I am completely pain-free and barely even notice when my period begins. The itching and rashes have vanished. As a nurse, I highly recommend Saukhyam pads because they are free from synthetic super-absorbents and chemical toxins.
