Significant Endometriosis Relief and Reduction in Ovarian Cyst Size

Tags: Endometriosis, Heavy Flow, Period Cramps, General Health, Long-term

Duration of Use: 5 Years

Summary:

I was diagnosed with endometriosis and had a painful 5 cm cyst on my ovary. My periods were incredibly heavy and painful, requiring constant medication. Five years ago, I switched to Saukhyam reusable pads and integrated yoga and dietary adjustments. Today, the ovarian cyst has shrunk from 5 cm to 2 cm, and I am completely off all painkillers. My menstrual flow has normalized, and my periods are almost pain-free. Switching to chemical-free banana-fiber pads allowed my body to recover its natural balance.
