Finding Complete Relief from Excessive Bleeding and Skin Friction

Tags: Heavy Flow, Period Cramps, Rashes & Irritation, General Health, Long-term

Duration of Use: 5 Years

Summary:

Standing for hours during lectures was extremely difficult due to heavy bleeding and painful rashes from disposable pads. Making the switch to Saukhyam pads five years ago completely changed my experience. The soft organic cotton layer prevents friction and rashes, while the highly absorbent banana fiber handles heavy flow effortlessly. My cramps have also decreased, allowing me to teach comfortably throughout my cycle.
