Gynecologist Verifies Reduced Bleeding and Safe Material Health

Tags: Heavy Flow, Period Cramps, General Health, Recent

Duration of Use: 8 Months

Summary:

As a medical professional, I struggled with heavy menstrual bleeding and pain for years. Within just two to three months of switching to Saukhyam reusable pads, my menstrual flow reduced significantly and the cramps subsided. These pads are 100% natural, chemical-free, skin-friendly, and biodegradable. They provide the perfect alternative to disposable pads, which contain dioxins and plastic super-absorbents. I confidently recommend Saukhyam to my patients for better menstrual wellness.
