A Medical Doctor's Journey to Regular Cycles Without Medication

Tags: Irregular Periods, General Health, Recent

Duration of Use: 6 Months

Summary:

For a long time, I struggled with highly irregular periods and sought a natural solution. Within six months of switching to Saukhyam reusable pads, my cycles became completely regular, arriving on time every month without any hormonal medication. As a doctor, I understand how the chemical toxins and endocrine disruptors in plastic disposable pads can enter the bloodstream through intimate tissues. Removing that source of toxins allowed my body to naturally find its rhythm again.
