Natural Cycle Restoration and Elimination of Chemical Rashes

Tags: Irregular Periods, General Health, Long-term

Duration of Use: 2 Years

Summary:

My periods had become highly irregular, sometimes with gaps of several months between cycles. My mother introduced me to Saukhyam reusable pads. Right from the first month of switching, my periods returned to their regular monthly cycle. I experienced no rashes, no pain, and no skin irritation. It became clear to me that removing disposable plastic pads, which contain harmful chemical residues, allowed my body to recover its natural hormonal rhythm.
