From Severe PCOS and Chronic Cramps to Natural Cycle Regularity

Tags: PCOS, Heavy Flow, Period Cramps, Irregular Periods, Rashes & Irritation, General Health, Long

Duration of Use: 4 Years

Summary:

I suffered from severe PCOS for nearly 15 years. My periods were extremely irregular, often accompanied by 20 days of continuous heavy bleeding, painful cramps that caused blackouts, and severe skin rashes from plastic disposable pads. My life revolved around managing pain. After switching to Saukhyam reusable banana-fiber pads, the transformation has been unbelievable. Within three years of consistent use, the painful rashes disappeared entirely, my period cramps reduced to a minimum, and my cycle became regular. Most importantly, my recent ultrasound showed that my ovaries are completely cyst-free.
